Education

VIT Bhopal University

B.Tech in Software Engineering

Oct 2023 – Apr 2027

Final Year | CGPA: 8.01 / 10

Sri Chaitanya Junior College, Tirupati

Jan 2020 – May 2023

12th – AP Board of Intermediate Education

95%

Mangal Vidyalayam

May 2021

10th – CBSE

80.2%

Projects

Vasturith – Society & Resident Management Platform | *Django, Flask*

Live | [GitHub](#)

- Built a **full-stack apartment society platform** using **Django** with role-based authentication for residents and administrators, complaint submission with photo attachments, and status tracking.
- Designed an **immutable complaint-history model** and configurable **overdue-detection system**, enforcing rules at both application and database levels; added dashboards for **status, category, and recurring-issue reports**.
- Implemented an asynchronous **Flask email microservice** for status changes, resolutions, and notices through a **token-authenticated internal API**, improving modularity and efficiency.
- Added resident-facing complaint history and admin reporting for detailed **complaint status, categories, and recurring issues**.

Alethelyte – AI Data Analyst Web App | *Python, Gemini API, Streamlit*

Live | [GitHub](#)

- Built a **full-stack data analytics platform** for dataset uploads and dynamic statistical visualizations with automated insights.
- Integrated **Gemini 3.6 Flash LLM** to create a natural-language “**Chat with Data**” interface for conversational dataset analysis and automated insights.
- Engineered **OTP email verification**, custom **SQLite** data management, and a **SaaS token-tracking system** with customizable user tiers.
- Enabled conversational querying of uploaded datasets with dynamic visualizations and **PDF/Excel report export**.

Technical Skills

Languages: Python, SQL **Frameworks:** Django, Flask, Streamlit

AI / ML: LLM/API Integration (**Google Gemini API**), Machine Learning & NLP Basics, **Generative AI**, **Agentic AI**, Prompt Engineering

Tools / Platforms: ServiceNow, **Automated Test Framework (ATF)** **Database:** SQLite3

Core CS: Data Structures & Algorithms, Object-Oriented Programming, System Design, DBMS Fundamentals

Experience / Training

Virtual Intern – ServiceNow University

Apr 2026 – May 2026

SmartBridge, in association with AICTE

- Engineered and executed **15+ automated test cases** using **ServiceNow Automated Test Framework (ATF)**, improving regression-testing efficiency by **30%** and reducing manual execution by **4+ hours per cycle**; validated workflows across **5+ modules** with a **95%+ pass rate**.
- Completed the ServiceNow Virtual Internship across **Agentic AI, Flows, and Reports**, building hands-on proficiency in platform configuration and workflow automation while preparing for the **Certified System Administrator (CSA)** exam.

Certifications

- **AI/ML Internship** – MPOne Limited May 2026 – Jul 2026
- **Applied Machine Learning in Python** – Coursera, University of Michigan Jan 2026
- **Google IT Support Professional Certificate** – Google Mar 2026
- **Essentials of Prompt Engineering & Fundamentals of ML & AI** – AWS Training & Certification Aug 2026
